

contributions to the families of Detroit and Michigan's 13th Congressional District as we honor her memory today.

RECOGNIZING CONGRESSIONAL APP COMPETITION WINNERS

Ms. TLAIB. Madam Speaker, I rise today in recognition of Michigan's 13th District Congressional App Competition winners, Hope of Detroit Academy's Green Warriors.

Under the guidance of their teacher, Ms. Allie Langwald, students Abraham Salas, Yaritza Campos, and Itzel Martinez worked diligently to find innovative solutions to address issues in their neighborhood in the southwest Detroit community.

Their hard work helped create the Green Warrior app, which utilizes technology to help residents quickly and easily report illegal dumping sites in need of cleanup and expose dangerous buildings.

In partnership, the students and their teacher worked with the city of Detroit and other community-based organizations. Their app will now ensure that neighborhood streets and parks are cleaned up, and dangerous buildings are boarded up, so the community can enjoy the use of public spaces.

Again, please join me in congratulating the Congressional App Competition winners, Hope of Detroit's Green Warriors, for their hard work on behalf of the communities of Detroit, Wayne County, and Michigan's 13th Congressional District.

VIOLENCE AGAINST WOMEN IN POLITICS

Ms. TLAIB. Madam Speaker, I am proud to rise today during the United Nations' 16 Days of Activism Against Gender-Based Violence to call out the disturbing rise of violence against women in politics here in the United States.

As we know, the never-ending string of ignorant, hateful, and downright threatening rhetoric against my sisters in service and I and many is unacceptable, especially the deeply hateful, Islamophobic comments from a Member of this body against Congresswoman OMAR and the straight-up death threat against Congresswoman OCASIO-CORTEZ, as well as our sitting President.

The hate these Members spew at every opportunity is not new. It is the same hate that is directed against countless women all around the globe and especially women of color in politics who are right now breaking down barriers and trying to represent and serve their communities.

By failing to put our party differences aside and denounce violence and hate, I want to encourage, again, my colleagues to continue to speak up.

During the United Nations' 16 Days of Activism Against Gender-Based Violence, I am asking folks to truly be able to speak up, stand up, and advocate for us to do better.

To that end, I am proud to have joined Congresswomen BUSH, OCASIO-CORTEZ, OMAR, PRESSLEY, and SPEIER to introduce H. Res. 801, which de-

nounces violence against women in politics in all its forms.

I urge my colleagues to support this resolution.

Madam Speaker, I yield back the balance of my time.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA, THE GOVERNMENT OF AUSTRALIA, AND THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND FOR THE EXCHANGE OF NAVAL NUCLEAR PROPULSION INFORMATION—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 117-77)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Foreign Affairs and ordered to be printed:

To the Congress of the United States:

I am pleased to transmit to the Congress, pursuant to section 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(d)), the text of an Agreement between the Government of the United States of America, the Government of Australia, and the Government of the United Kingdom of Great Britain and Northern Ireland (the "United Kingdom") for the Exchange of Naval Nuclear Propulsion Information (the "Agreement"). I am also pleased to transmit my written approval, authorization, and determination concerning the Agreement. The memorandum submitted to me by the Secretary of Energy providing a summary position on the Agreement is also enclosed.

Pursuant to the enhanced trilateral security partnership called "AUKUS" announced earlier this year, our three governments are engaging in an 18-month consultation period to seek an optimal pathway for delivery of nuclear-powered submarines for the Royal Australian Navy at the earliest achievable date. The Agreement would permit the three Parties to communicate and exchange Naval Nuclear Propulsion Information and would provide authorization to share certain Restricted Data as may be needed during trilateral discussions, thereby enabling full and effective consultations.

In my judgment, the Agreement meets all statutory requirements.

I have determined that the United Kingdom and Australia, by participating with the United States pursuant to international arrangements, are making substantial and material contributions to the mutual defense and security. The United Kingdom is party to the North Atlantic Treaty, and Australia is party to the Australia, New Zealand, and United States Security Treaty.

I have approved the Agreement, authorized its execution, and urge that

the Congress give it favorable consideration.

JOSEPH R. BIDEN, Jr.
THE WHITE HOUSE, December 1, 2021.

REVIEWING THE FISCAL PICTURE OF AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentleman from Arizona (Mr. SCHWEIKERT) for 30 minutes.

Mr. SCHWEIKERT. Madam Speaker, tonight we are going to try to do sort of an extension of the last couple of times I have been behind this microphone and have a discussion about what is actually going on with the big fiscal picture of our country.

I am going to be a little mean to some of the Democratic policies, but I am going to show factually how I think it actually hurts, but there is actually something that happened this last week that we should actually be almost giddy about if it ultimately proves out, a major breakthrough on one of the things that creates misery around the world, let alone our own country, but also has real fiscal impacts.

So, let's actually sort of start with some of the basics. How much do you think we borrowed every single day last year? We were playing with the math a little while ago. We were borrowing about \$3.8 billion every single day. Break that down, do that math, and it is \$160 million an hour.

I know every time I get behind this mic and start talking numbers, people just glaze over, but it is important because if you are someone who says I really care about investments in the environment, I really care about investments in healthcare, I really care about investments in education, where do you think the money is going to come from?

If we continue policywise the avoidance of the drivers of our debt, we continue doing public policy by feelings. One of the things that enrages me around here is we have entire conversations, entire speeches behind these microphones, and then we make public policy by our emotions, by our feelings, but not by a calculator.

□ 1830

And I know the calculator sounds cold, and as Republicans, we sound like accountants on steroids, but at some point the math is important. But also, what happens when I can show you that getting the math right means you don't hurt people?

We saw in the Democrat social spending bill, their Build Back Better, multiple university papers coming out saying, Hey, we are looking at this and we believe the working poor will be poorer at the end of the decade. The disassociation of the value of your labors to money coming in, the other social policies that were driven in that piece of legislation, they may be great politics,
